

## Bike Racks

All Deviated Fixed-Route Buses are equipped with bike racks.

Have you thought about riding the BUS to work if only the bus stop was a little closer? Riding your bike is a great way to close the distance between your home and the bus stop. Plus, Frankfort Transit's Deviated fixed-route buses have bike racks so you can bring your bike with you. If the bus service doesn't work for you and the commute is still too far to bike all the way, a great option is to drive part of the way and bicycle the rest. If you work in an area with a lot of traffic congestion, this may even \$ave you time! You will likely find that combining bicycling and driving or public transit adds up to some big \$avings. If you have additional questions, feel free to contact us at 502-875-8565. "Life is like a ten speed bicycle. Most of us have gears we never use." ~ Charles M. Schulz
